

# Company Name"

## Mainstreaming Bulletproof Mobility

### Safety as Standard

"Company Name" is pioneering the world's first pre-built OEM line of BR6-level ultra-luxury armored supercars. We're making ballistic protection as standard and affordable as airbags and seatbelts.

### The Protection Gap

In today's world, personal security threats are increasing, yet armored protection remains inaccessible to most.

- 18 HOURS**  
Someone is shot in a U.S. road-rage incident
- 90%**  
Carjackings involve a firearm
- 0%**  
Automakers offer factory-integrated BR6 protection

### OUR VISION

To make bulletproof automobiles as mainstream as airbags and ABS — defining new category of luxury safety mobility and establishing "Company Name" among the world's next-generation automotive innovators.

### Target Markets

### Our Revolutionary Solution

"Company Name" integrates lightweight composite armor directly into the vehicle structure at the OEM level.

#### Graphene-Enhanced Armor

Patented materials from U.S. defense partners (DEVCOM, AFRL, MIT ISN)

#### 4x Lighter

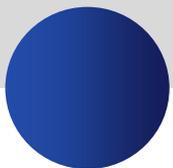

Composite-metal-foam technologies reduce weight by 75%

#### 5x More Affordable

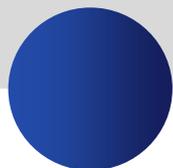

Price points from \$69K-\$125K — up to 60% below competitors

### LEADERSHIP TEAM

**Owner Name 1**  
Founder & CEO

Visionary behind Texas Armored Direct, leading R&D in scalable ballistic safety integration.

**Owner Name 2**  
COO

expert in global operations, manufacturing discipline, and investor-grade execution.

### Business Model
